

Script. Cloud

**Script.Cloud is your answer to data security and storage.
Don't be tied down with expensive upfront physical hardware costs.
Go Cloud!**

Features

Latest security

Keep your customers and pharmacy data protected with market-leading inbuilt security.

Cost effective

Say goodbye to huge upfront infrastructure fees with our cost effective month-to-month payments.

Scale on demand

Respond faster than ever to support the needs of your business as it grows.

Automatic backups

Ensure your data is recoverable and viable for a faster recovery.

Flexible term contracts

Find the plan to suit your needs with flexible contract options.

Work remotely

Work from home or any location worldwide with the freedom of a virtual private network.

How does it work?

We will commission, manage and maintain your cloud Virtual Machine (VM) and the associated secure private network tunnel to your pharmacy with the latest cloud server infrastructure. Use this VM server for all software databases and valuable files.

Each workstation in your pharmacy will be linked directly and independently to the cloud server via a secure private network tunnel. **Unlimited installations** of these secured tunnels will give you the freedom to work from home, or while on-the-go, to keep you connected to your pharmacy.

Why Script Cloud?

Regulate business Cashflow - Script's subscriptions model allows you to avoid upfront physical hardware cost on infrastructure.

Onshore Data Compliancy - Your data is stored securely onshore in Microsoft data centers whilst observing Australian privacy laws.

Scale up on demand - A fast growing business needs a system that can scale-up on demand. Cloud servers can upsize in space & computational power within minutes!

Daily Cloud backups - Ensure you have safe copies of your data and operating system ready to go. We ensure your backups are running successfully and viable.

Data protection from onsite disasters - including fire, flood, theft and corrupt hardware.

Flexible subscription terms

- Pay-As-You-Go (No lock-in terms)
- 1 year
- 3 year (Best value)
